Racine, WI 53402

September 14, 2009

Dear Paul,

It was great meeting you when you visited us here at St Pius X a few weeks ago. I wanted to let you know how much I really enjoyed your music at our Masses and even more enjoyed the beautiful evening session where you incorporated your music with your personal witness.

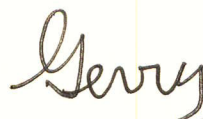

Your witness was wonderful and touched the hearts of all who attended the Sunday night session, both young and old alike. In addition, your music was very moving and helped drive home the points you made in your talks. I was happy to be able to get the CD's so I can continue to sing along whenever I want.

In addition, I thought you might like to know that I brought your "Thank You Lord" CD with me to the prison and used the music in my Communion service. I have to tell you, the guys were also much moved. We were especially touched by "I Still Believe" and "Thank You Lord." What a powerful message for anyone facing difficult times in life!

I wish you continued success as you work to spread the Good News of our Lord Jesus. I also look forward to seeing and hearing you again the next time you're here in Vermont.

May our Lord continue to bless you, your family and your ministry.

Your brother in Christ,

A handwritten signature in cursive script that reads "Gerry".
